

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
SAN FRANCISCO BAY REGION

CITY OF LIVERMORE

ORDER NO. 77-12

ORDER GRANTING ADDITIONAL DISCHARGES TO THE CITY'S  
SEWER SYSTEM PURSUANT TO ORDER NO. 76-132

I. FINDINGS

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

- A. On November 1, 1974, this Board adopted Order No. 74-133, an NPDES Permit, prescribing waste discharge requirements for the discharge of the City of Livermore.
- B. On December 21, 1976, this Board adopted Order No. 76-132, a cease and desist order, which prohibited additional discharges to the City's sewer system.
- C. Order No. 76-132 provided for partial removal of the prohibition and allowance of additional discharges to the sewer system upon forthwith achievement and completion of certain specified tasks or additional tasks not specified in the orders and which represent a measure of substantial progress.
- D. The City through its membership on the Livermore-Amador Valley Water Management Agency has taken substantial steps towards authorizing the commencement of design of the initial portion of facilities to comply with Order No. 74-133, has authorized studies to select an alternative route for export of wastewater and has stated its intent to make its decision regarding the alternative not later than March 31, 1977, which would permit the design to be completed by September 1, 1977.
- E. Compliance with other limitations and time schedules for completion of design of Order Nos. 74-133 and 76-132 has not deteriorated.
- F. On February 15, 1977, the California Regional Water Quality Control Board, San Francisco Bay Region, after due notice, held a public hearing under provisions of Water Code Section 13301 regarding the discharge of waste and pollutants by the City of Livermore.

- II. IT IS HEREBY ORDERED THAT the prohibition of additional discharges to the sewer system as provided in Order No. 76-132 is partially removed and the City of Livermore is allowed additional discharges to the sewer system sufficient to serve those proposed projects for which the City has received and processed all documents required by the City for issuance of a building permit prior to February 15, 1977 at such time as the Executive Officer is satisfied that task F.1. of Order No. 76-132 has been accomplished (not later than March 4, 1977).

I, Fred H. Dierker, Executive Officer, do hereby certify that the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, San Francisco Bay Region, on February 15, 1977.

FRED H. DIERKER  
Executive Officer
